

GOVERNOR COX WINS FAVOR

BY WAY HE SQUARELY ANSWERS PUBLIC QUESTIONS.

Contracts Advancing to the Honoring and Wearing Harding Eight Ways on League Question.

Governor Cox on his western trip has faced and answered satisfactorily his position and that of his party on a number of public questions. As to the Irish cause he said:

"It would be my duty, and very quickly availed of, as a friend of peace, asserting the friendly right of any member of the League to present the Irish cause to the attention of the League under the authority given by Article XI and give to Ireland, or to any other aggrieved people, the opportunity to plead their cause before the bar of civilized opinion. It must not be forgotten that when we took up arms the thing that gave us unity and great enthusiasm was our declaration that we fought to end the rule of might; that we were champions of the 'rights of small peoples'; that we stood for the reign of law based upon the consent of the governed." As I have said before, the League contemplates enduring peace.

"There cannot be peace without happiness. There will not be happiness without justice. You cannot take mountains nor rivers, nor other physical characteristics and by their natural lines create governmental entities that will endure. On the other hand, racial groups will form a better guarantee of peace. This is not only fundamental in common sense, but it touches the basic principle of the armistice and the League itself. Therefore, I contend that the League of Nations will be helpful to the civilization of the world, because it will be creative of a new life, national and otherwise, for racial groups, which have for generations fostered the same aims and hopes and aspirations that inspired the founders of our Republic."

Corruption Fund.
Referring to the evidence taken in proof of his assertion that millions were being raised to buy the Presidency, to the fact that the truth had come out that \$400,000 had been raised in Cleveland as testified by Mr. Blossom in contradiction of Assistant Treasurer Upham that that was the figure for the whole State of Ohio, and that Mr. Blair had testified that instead of getting funds from corporations they were getting money from men having charge of corporations. Governor Cox declared:

"The time is here to make an object lesson. If corruption in campaigns which are conducted as a part of the orderly processes of government is to be stopped, we should begin now and law violators should be brought to the bar of justice, no matter who they are."

Prohibition No Issue.

When Governor Cox was asked about the liquor question he said: "I welcomed the question. That there may be no misunderstanding, I want to re-state where I stand frankly and elaborately."

"I have been surprised on coming into this vast Northwest country to find that out here, where the great moral issue of peace through the League of Nations has become a soul-absorbing question, the opposition has been seeking to avoid that issue by setting up as a bugaboo the liquor question, an issue that is as dead as the issue of slavery."

"So far as the presidency is concerned, the issue under the eighteenth amendment is one of law enforcement. We must judge men by their performances than by their promises, and by illustration, as governor of Ohio, I enforced the laws for the first time in the history of the State. I closed not only the front, but the back doors of saloons on the Sabbath. I enforced all of the laws, and as President of the United States I shall continue to enforce the laws, regardless of what interests may be affected."

Self Partisanship.

"I have been amazed at the results achieved in our irrigation and reclamation projects, some of which I have seen for the first time in my pilgrimage to the western coast, and I am appalled by the thought that selfish partisanship in the United States Senate, holding up by the heels the civilization of the world, would make it necessary for us to continue the building of big armaments when the amount necessary to expend in that program would increase the productive acreage of the United States by hundreds of thousands of square miles."

"When it is considered that the development of the Yakima Valley cost the Government only \$100,000,000, approximately, and that the price of a modern battleship such as is being constructed to-day is \$40,000,000, the average man can grasp the possibilities of a permanent peace and a complete disarmament. If we can stop building battleships and constructing agencies for the destruction of human life, we can turn our thoughts to the development of agencies for the conservation of life and the happiness of mankind."

Governor Cox stated that, if elected, his appointments to office would be made with no other consideration in mind than the welfare of the people. He has said that he would appoint a "dirt farmer" as Secretary of Agriculture. He added that he favored the selection of a western man as Secretary of the Interior. Discussing the development of Alaska, which is a question of great importance in Alaska, he said that he was in favor of sending a commission of mining men and experts, including, perhaps, such a man as Herbert Hoover, to study on a program to remove the "straightjacket" from that territory.

Republicans Backfire.

The Republicans have begun to worry over Governor Cox's vigorous campaigning and the success he has been having by his advocacy of progressive doctrines, and their game has developed of trying to undermine by hollering Wilsonism and double cross on the dry and wet.

Compare Ohio and Pennsylvania.

The audience cheered again and again as Governor Cox compared conditions in Ohio, where he said progressive government had won its fight, and in Pennsylvania. He referred to Pennsylvania as "Siberia," and described how during a strike of the workers in a steel mill in Pennsylvania, near the border line of Ohio, the Pennsylvania Constabulary had broken up a meeting where strike leaders were talking.

The strikers went across the border into Ohio. Governor Cox said. He was asked to drive them away but refused, advising that they be given the chance to speak their minds. "And when the shades of evening came," said the Governor, "they went back home into Siberia, and they knew the difference between America and Siberia."

Front Porch to be Abandoned.

Governor Cox told his audiences that it should be made a condition that any man nominated for the Presidency make a tour like his, study the needs of the country and get close to the people, so that he might have a better understanding of their desires.

Their desires, alarmed at the vigorous way Cox has forced the fighting and alarmed at the progress of the Cox campaign in the west, have given an order to abandon the "dignity" of the sedentary front porch campaigning and toward the end of this month Harding will begin a journeying that will take him into many States.

Heckler Answered.

"If you are elected President," shouted the heckler, "how do you expect to restore business when 80 per cent of the wealth of the country is held by 2 per cent of the people?"

"I tell you how," replied Cox. "If 80 per cent of the people will forget politics and help me to lick the 2 per cent that is raising a fund of from \$25,000,000 to \$30,000,000 to beat me, we will make the government an agency of 100 per cent of the people and not of 2 per cent of the people."

Farmers' Day May Be Revived.

At a meeting of the directors of the Chamber of Commerce the matter of reviving Farmers' Day was taken up and progressed so far as the appointment by President Funkhouser of a committee to canvass a number of business people in town to ascertain the sentiment toward the project. The committee, H. T. Weaver, John W. Brehm and Harry Troxell, have met with much enthusiasm and they will report the result of their canvass to the Chamber of Commerce. In order to carry the Day through successfully considerable expense will be incurred and the Chamber of Commerce feels that it cannot finance the proposition without the co-operation and financial assistance of the citizens.

It is likely that the day will be early in October and a day in the middle of the week instead of Saturday as formerly, will be selected. Special attractions from some of the nearby fairs may be secured to add to the big time.

Farmers' Day was a big day for the town and county and it is to be hoped that it can be revived in all its glory and then some.

Prohibition National Headquarters issued a statement by Aaron S. Watkins, Prohibition nominee for president, attacking the record of Warren G. Harding on the dry question.

Watkins said he was unable to find any instance of Senator Harding voting for the dries and cited figures designed to show that the Republican nominee voted with the wets on thirty occasions and was "absent or dodged 1163 roll calls and quorum calls."

The statement said:

"It seems quite clear to me that the friends of Senator Harding have overworked his meager Prohibition record and have left in idle inefficiency a perfectly good and healthy heritage of wet votes which decorate his congressional record. For instance, he voted against prohibition in Porto Rico. Moreover, he cast several votes against war time prohibition and spoke at length against it and I have been unable to find any cases in which he supported it."

"In August 1917, he supported the Reed amendment which provided that Congress should have no power to enforce the eighteenth amendment until it had made provisions for compensating liquor manufacturers and dealers for the loss sustained by them through the closing of their business. It was Senator Harding who introduced the six year clause which the wets confidently prophesied would defeat the measure. His vote for the submission of the amendment in which he announced his opposition to it, and his vote was merely his consent to allow the people of the several States to settle the question."

"Lynn Haines, of Washington, in a review of Senator Harding's congressional record, credits him with thirty wet votes during his incumbency of the senatorship, and incidentally states that he was absent or dodged 1163 roll calls and quorum calls."

"Mr. Haines also points out that he has voted against every amendment to the revenue bill to increase the tax on profiteering and large incomes and opposed publicity of profiteering figures. He further records him as voting with capital and against labor in every important test on that issue and also as opposing public ownership in every form. He spoke and voted for conscription as a permanent policy; opposed a referendum as to future wars; opposed adequate appropriations for the Federal Trade Commission; opposed the abolition of secret sessions of the Senate; opposed Philippine independence and supported women suffrage only after much reluctance and indecision. He seemed to be permanently parked with Lodge, Penrose, Smoot and Brandegee on most of the issues of outstanding interest to the nation."

Mr. Joy Model School.

Last Saturday, the Mr. Joy Community Association held a picnic at the grove near Two Taverns. Several thousand people attended the picnic enjoying the exhibitions of stock, tractor and automobile demonstrations, band concerts, cake walks, baseball and other attractions. The speaker of the afternoon was Dr. Lee Driver of the rural education work of the State Department, and Dr. H. L. Haver head of the live stock extension work at State College. The gross receipts of the picnic were about \$600.

The party from Washington did not arrive until the early evening and was composed of Edward J. Ward, community specialist of the United States Department of Education, and Mrs. Ward, and C. G. Russell, head of the Park View Community Association of Washington.

Mr. Ward addressed a large audience in the evening and declared that Mr. Joy will be selected as the township in which to build a model consolidated school under direction of the United States Government and the State of Pennsylvania as soon as the bill which has been framed is passed by Congress. Under the proposed bill a model rural consolidated school would be built at little or no expense to the township or county. The building would be erected from funds provided by the Federal government and the State for the purpose of demonstrating the wisdom and feasibility of the consolidated school plan which is being advocated strongly for country schools by a number of prominent educators of the nation. In such a modern building would be located branches of three different Federal bureaus, according to the bill. Here these bureaus would establish field offices for observation purposes and the government agriculture experts and educators would take the Mr. Joy school as their demonstration school. In addition the United States would establish a postal station at Mr. Joy.

Bridges Completed.

The new bridge over Rock Creek on the Lincoln Highway has been named the Lincoln Bridge, a bronze tablet on bridge containing the name. The bridge has been inspected by the inspectors appointed by the Court, Wm. H. Johns, Levi J. Diehl, and Eugene Shriver.

The commissioners in building the bridge and a conduit placed in bridge and place for standards and have indicated that they are prepared to have the bridge wired and standard erected if the town or Chamber of Commerce will provide for the payment of the electric lighting. This proposition should be accepted by the borough authorities for it will be an asset of great value to this town to have this bridge well lighted, for the design of bridge being handsome the approach to town over a lighted bridge will be most effective.

The work of filling the bridge over Rock Creek on Lincoln Highway has started and the State gives assurance that the fill and concrete roadway over the bridge will be completed by the end of September and as the contractor for building of streets has finished York street, it is expected that the Lincoln Highway eastward will be open to traffic by end of month.

Levi J. Diehl, Eugene Shriver and Wm. Eline were appointed the inspectors for the bridge on Harrisburg road completed last year at the contract price of \$7300.

The commissioners have accepted the bid of George Merdinger for the building of the bridge over Bermudian Creek on the Harrisburg road.

The awarding of the contract for the bridge over Middle Creek on the Emmitsburg road in Freedom township has not been concluded, the bids for the same being very high.

October 2nd Last Day to Pay Taxes.

Over six thousand women voters have been registered in Adams County.

The next duty to qualify as a voter is the payment of a tax. Saturday, October 2nd, is the last day for the payment of this tax. The tax in all but a few instances is 25 cents.

The best qualified women of this county have a duty to perform, a patriotic duty requiring every woman of intelligence and property to help advance the best interests of this democratic government by paying the assessed tax and voting.

Payment of tax should be made to the Tax Collector in each district. Get a receipt when paying and be prepared to show receipt at the polls.

Opening Show and Sale COATS AND SUITS for Fall and Winter

Our exposition of cool-weather garments is an index to the fashion thought of the world and a tribute to the thoro workmanship of American makers. We feel that our selections have brought us models that are in every way as desirable as you might find anywhere in the land—as sure in point of stylishness, as evident in point of quality, and without peer in point of value. You will not need to look beyond the store for exactly the garment to fit either your fancy or your purse.

Coats

FABRICS chosen not merely for show but for tailoring qualities that ensure enduring shapeliness and intrinsic qualities that mean long and profitable wear. The silk linings are quality linings and exquisite to a degree. Where furs are used they are of carefully selected quality.

Suits

THE variety runs from severely simple tailor models to elaborately embroidered, fancifully cut and richly fur trimmed styles meeting every need and every purse. We diligently sought—and found—that unmistakable quality in material and workmanship without which there can be no real value.

In both coats and suits we can fit perfectly, not only those of regular build but the very large and the corpulent, the undersized woman and the girlish figure.

A back that aches all day and causes discomfort at night is usually worse in the morning. Makes you feel as if you hadn't slept at all. You can't get rid of kidney back-ache, until you reach the cause—the kidneys. Doan's Kidney Pills are especially prepared for weakened or disordered kidneys—have been gratefully recommended by thousands.

Testimony of Gettysburg people proves the merit of Doan's.

John J. Tawney, 334 Baltimore St., Gettysburg says: "I suffered off and on with rheumatic pains and kidney ailments. My back ached constantly and often in the morning I was so lame and stiff I could hardly get out of bed. My kidneys acted irregularly too. Someone advised me to try Doan's Kidney Pills and I got some at the People's Drug Store. I was surprised at the quick relief I received. I am not bothered by rheumatic pains now and I am in much better health all around."

OVER TWO YEARS LATER Mr. Tawney said: "I still use Doan's Kidney Pills, in fact, I always keep them in the house. I know if I take a few as soon as I have any symptoms of kidney trouble, I will be saved a great deal of suffering."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Tawney had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
